BABY'S ITCHING WAS INTOLERABLE

Girl of Six Months had Fearful Attack of Eczema—Spread All Over Her Face and Eyes Began to Swell—Scratched Till Blood Came—Relieved in a Night and

CURED BY CUTICURA AFTER LONG SUFFERING

When my little girl was six months old I noticed small red spots on her right cheek. I did not pay any attention to them until they had spread all over the face and the spots grew so large that I sent for the doctor who said it was eczema. He prescribed an ointment which I used for two weeks, but instead of helping the eruption the ointment seemed to make it worse. Then I went to a second doctor who after examining the baby said it was eczema. He also gave me no ointment which did not help either. The disease in the meantime spread all over the face and the eyes began to swell. I became very anxious, and I was unable to sleep. I had to tie the baby's hands to the cradle to prevent her scratching. The cheeks were covered with blood and it was a terrible sight to see. I consulted doctors from September to December, but they were unable to cure the baby. I paid out from twenty to thirty dollars without relief.

One of my friends told me of the Cuticura Remedies and I sent at once for a set which I began to use that evening. The next morning the baby's face was all white instead of red and you can imagine how surprised I was. I cannot find words enough to praise Cuticura and I do not know what would have become of my baby only for it. I used the Cuticura Remedies until the eczema entirely disappeared. The child is now three years old and quite well. I used three cakes of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent. I never used any other soap. I always recommend them whenever there is a chance for doing so. I will send you one of her pictures which she had taken just after she was healed. Mrs. P. E. Gumbin, Shiloh, Ia., July 13, 1908.

SEEK POLE IN AIRSHIP

Kaiser Accepts Proffered Over Count Zeppelin's Adventure.

BERLIN, July 2.—Count Zeppelin intends to make an effort to reach the North Pole in his airship. The Emperor accepted proffered over the undertaking, after listening to a report on the subject, by Count von Hergersheim, of the University of Strasbourg.

The plan embraces a thorough exploration of the polar regions by means of a Zeppelin airship before undertaking to reach the pole. A craft of special strength will be built for the purpose, and the expedition will be fitted out under the management of Count Zeppelin.

Prof. Hergersheim will leave Germany next summer, reaching Spitzbergen via Norway and landing at several places along the route. The headquarters of the expedition will be at Cross Bay, on the west coast of Spitzbergen, which Prof. Hergersheim chose upon the basis of measurements made by the Prince of Monaco.

It is not yet certain whether the voyage to the pole will be undertaken in 1910. This will depend upon the result of the general voyage to the polar regions. In order to determine the general feasibility of the scheme, extensive geographical and meteorological studies are regarded as necessary before the polar venture.

Our new telephone directory will be delivered this week and a copy of it will reach every subscriber. The new book shows the prefixes before each telephone number, which were made necessary by the opening of an additional exchange. These prefixes will not be effective until Sunday, July 4. For this reason we are asking telephone users not to consult the new directory until July 4.
